

MINTO AND HUGHES CITY AC RFQ

ADDENDUM #2

April 2, 2024

QUESTION #1, Is the air conditioner submittal document the size of the unit you want installed? It is a 24,000 Btu unit and the room looks rather small for that size.

REPLY #1, Yes

QUESTION #2, Are there any better pictures of the building layouts with measurements and electrical information? The ones that we have are not very clear.

REPLY #2, The drawings provided of the Minto clinic are file copies. TCC can coordinate a site visit requested by contractors.

QUESTION #3, Will TCC have any lodging available for the crew or have any recommendations on who to contact in each village?

REPLY #3, TCC will not be providing lodging. TCC recommends contacting the Minto Lakeview Lodge at 907-798-7448 or 7112 for lodging and contacting the Tribe in Hughes at 907-889-2239 or the school at 907-889-2204 to see if they can put you in touch with local lodging contacts.

QUESTION #4, On the Minto building, it appears from the pictures the indoor unit is to be located on the opposite end of the building. Is this required or can the outdoor unit be on the same end of the building?

REPLY #4, The photographs reflect actual field conditions. TCC has provided a drawing with this addendum to clarify locations.
